DECLARATION

TO WHOM IT MAY CONCERN

Product: ***KLEIBERIT Reactive Hot Melts PUR***

Dear Sirs,

KLEIBERIT Reactive Hot Melts PUR are adhesives based on polyurethane.

We declare, that the following ingredients will not be used:
formaldehyde, asbestos, lindane, polychlorinated biphenyls (PCB),
pentachlorophenol (PCP), toxic heavy metals or other slowly emitting toxic
substances.

Aromatic hydrocarbons like toluene (methylbenzene), xylene (dimethylbenzene),
ethylbenzene, styrene (ethenylbenzene) will not be used in the present time
and in the future and are also not included in the raw materials.

The final product in the absolutely cured situation does not contain any
dangerous substances, which may be a risk for health for the consumer. A
typical plastic material of the group of polyurethanes is formed, which is used
in many articles of the daily life.

This product is classified as a solvent free one in accordance with the Industrial
Association of Adhesives, Germany, (Industrieverband Klebstoffe) and the
directives of the EEC and corresponds to the latest technical state in view of
health and safety.

The guidelines for the technical approval of parquets, wooden floorings and
parquet adhesives will be prepared by the German Institute for Construction
Technology, Berlin (Deutsches Institut für Bautechnik - DIBt). The final form of
the guideline isn't released till now and the latest information we have for the
act of coming into force is planned not till 01.01.2011.

Kindly Regards.

Dr. W. Stüber
