

Environmental Statement Bona UV-Finishes.

We hereby confirm that during the production process of all Acrylate based UV-products, produced by Bona AB, no Heavy Metals, Formaldehyde, Lead, Pentachlorophenol, MDI or TDI are intentionally used in the process or added to the products.

We also confirm with this letter the fact that our UV-Finishes, used in accordance with our recommendations and fully cured will not pose any health hazard to the user of the wooden floor.

Malmö 2012-02-13

A handwritten signature in black ink, appearing to read "Arne Wallin", is written over a horizontal line.
